EXPERIENCE

Correctional Officer

Pulaski County Sheriff's Dept.

Feb 2022 – July 2024

Winamac, IN

- Transported inmates to and from allowed areas, including court, other departments, or within the facility.
- Logged inmate movements and actions throughout the facility, implemented a logging structure for other officers.
- Ensured the safety of other inmates and officers, was certified in safe take-downs, taser & firearm usage, and immediate health and safety.

Delivery Driver

Insomnia Cookies

Jan 2025 – March 2026

Muncie, IN

- Optimized routes for deliveries, using roads and other travel ways for more successful delivery times.
- Troubleshoot bugs and glitches with the delivery applications, delivering helpful bug fix requests.

PROJECTS

natchronicle.com | *Next.js, Strapi, Tailwind, Cloudflare*

- Co-founded a digital news organization, serving as Lead Developer to architect a high-performance web platform from initial concept to deployment.
- Engineered a custom content management pipeline using Strapi and Next.js, enabling role-based access control (RBAC) for journalists and streamlined editorial workflows.
- Developed a robust user permission system to manage administrative, editorial, and contributor roles, maintaining data integrity across the organization.

musicpodcastplayer.com | *Vue + Vite, Flask, FastAPI, AWS*

- Engineered a full-stack audio platform leveraging the Podcasting 2.0 Standard to parse and stream global RSS feeds.
- Architected a Flask-based ingestion engine with 90%+ test coverage, utilizing AWS CloudWatch for custom telemetry and real-time metric dashboards.
- Developed a responsive Vue.js frontend with integrated RESTful API state management for seamless audio playback and library synchronization.

Smallr | *Node.js, React Native, SQLite, Prisma, Nanoid*

- Developed a link-shortening application that use nanoid to delivery smaller endpoints for users.
- Engineered a custom Node.js API with controller functions to DELETE, GET and POST shorter links to SQLite database.
- Produced a responsive fronted with reactive components and error safe responses.
